

Statement of retractions

This is to notify our respectful reading public that the Editorial Board of the Armenian Journal of Mathematics has retracted the following articles from publication.

1. Iampan A., *Fuzzification of ideals and filters in Γ -semigroups*. Armen.J.Math. 4 (1), 2012, 44–48

This article substantially reproduced the content of an original article: Kehayopulu, N. & Tsingelis, M. Semigroup Forum (2002) 65: 128. <https://doi.org/10.1007/s002330010079>

We are grateful to Prof. Kehayopulu for letting us know about this plagiarism.

Editorial Board also want to note that we do not get any comment or explanations for this situation, and all our emails to professor A. Iampan remained unanswered.

2. Ayazul H., *On the socles of commutator invariant submodules of QTAG-modules*. Armen.J.Math. 10 (7), 2018, 1–11

This article reproduced the content of an original article by Peter Danchev and Brendan Goldsmith, with only substitution “QTAG-module” instead of “Abelian group”:

Danchev P., Goldsmith B., *On commutator socle-regular Abelian p -groups*. J. Group, Theory, 2014, 1–23. <https://doi.org/10.1515/jgt-2014-0003>

We are grateful to Prof. Danchev for letting us know about this.

Prof. Ayazul provided explanations are not satisfactory for the Editorial Board.

Hereby we retract the articles due to the unethical behaviour of the authors within the scientific community. Also, we wish to notify that all further collaboration with the authors of mentioned articles is terminated. The retracted articles will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as RETRACTED.
